

WSTS Semiconductor Industry Forecast

WSTS issues twice a year the Semiconductor Industry Forecast. During the so called "Forecast Meetings", each year taking place in May and November, market research experts of WSTS member companies join their knowledge base to develop the forecast.

Forecast Schedule

Forecast Edition	Release Date
Spring 2024	04 June 2024
Autumn 2024	begin of December 2024*
Spring 2025	June 2025*
Autumn 2025	begin of December 2025*

* Future release dates are tentative and may still change.

Availability of the WSTS Forecast

Semiconductor industry forecasts are issued by WSTS to all member companies. A condensed version displaying top level products is available to the general public ("Press"). Forecasts with full details may also be obtained from WSTS' licensed distributors (see "Subscription" for more details).

WSTS member companies may download the most recent forecast from the Top-Menu "Members Only", Submenu "Forecast". From the same location quarterly forecast updates may be downloaded. Older forecasts are in the "Archives" section, submenu "Forecast".
